## WORK EXPERIENCE

### • Software Developer

*Cognizant Technology Solutions India Private Limited*  
03/01/2022 – Till Present

#### Working for Reputed banking Firm

- As part of Governance Risk Compliance (GRC) we are building application for client so that 60-70% of manual efforts can be reduced by leveraging AI/ML models and Adobe Services along with user friendly UI.
- My key responsibilities - building reusable UI components integrating it with backend, deploying micro services in Cloud, writing frontend and backend unit test case to make sure code coverage is above 90%.
- My other roles and responsibilities include reviewing changes within team, analyzing and providing efficient solution for user story team is assigned.

### • Software Developer

*Majesco Software and Solutions India Private Limited*  
27/11/2017 – 31/12/2021

#### Heritage Insurance

- Heritage is Insurance portal and provides insurance for Homeowners, Dwelling Fire and various Line of Business.
- My key responsibilities - working on enhancement and change request as per client requirement, analyzing production issues and resolving with in SLA with RCA
- My tech contribution includes creating Frontend screens as per wireframe and integrating it with rest end point using Spring Boot, analyzing keycloak and SAML issues and helping other teams on how to approach the problem statement as and when needed.
- I have also developed Utility for end-to-end testing of application using Selenium and Java that helps to check high level application flow after new enhancements.
